

# ProFormance CANINE

**Let's get you back in the game!**

**The most advanced orthopedic solutions for your performance dog**

Dr. Brian Huss is excited to introduce the opening of ProFormance Canine, a comprehensive sports medicine facility at Vetcision Hospitals. We have been working with sporting and performance dogs and their human partners for many years. ProFormance Canine allows us to utilize our expertise and bring together a team of diagnostic, surgical and rehabilitation specialists - all with the same goal: to push the limits of current medical care and return these athletes to their full performance level.

- **Cranial cruciate ligament treatments**
- **Sports injuries**
- **Fracture repair and management**
- **Minimally invasive surgery**
  - Arthroscopy, C-arm, laparoscopy, thoracoscopy
- **Osteoarthritis management**
- **Adult stem cell therapy**
- **Rehabilitation and conditioning**
  - Acupuncture, massage, laser, water therapy
- **Pre-sport examination and consultation**
